ICT Consulting Procurement Board Direction 2019-01 definition

The ICT Consulting commercial framework applies to ICT Consulting engagement type

Procurement Board Direction 2019-01

‘A consultant is a person or organisation engaged under contract on a temporary basis to provide recommendations or professional advice to assist decision-making by management. Generally it is the advisory nature of the work that differentiates a consultant from the other contractors.’

Interpretation

From an ICT Consultancy perspective – we focus on where the output is report, advice, strategic plan or audit as opposed to actual implementation, or ‘doing’.

Common Examples

A person of firm engaged to assist the development of an information technology strategic plan and / or to assist with the development of specifications for the systems and / or to provide advice on implementation is a consultant

A person or firm engaged to undertake implementation in accordance with the specifications, for example, supplying or writing the software and constructing the systems, would NOT be a consultant

ICT Consulting Engagement Type

The ICT Consulting commercial framework applies to ICT Consulting engagement type

Engagement type	Sub engagement types	Description

Exception processes

A more stringent approval process is required for each engagement that does not comply with any element of the ICT Commercial framework

Included are the following scenarios:

- an engagement from a supplier that has not accepted the standard commercial framework
- where the engagement proposal is not compliant with the standard commercial framework

Approval of non-compliant engagements require the following actions for each engagement:

- must have the Secretary, Executive Agency Head or cluster Chief Financial Officer approve the engagement, but only once satisfied that work cannot be undertaken under the standard commercial framework
- ensure engagements are competitively bid with at least three bids to ensure value for money
- *report information about the engagement upon approval through the Board's Major Supplier's Portal*
